## SUMMARY

I am a Graduate full stack web Developer from Le Wagon Bootcamp with prior experience as an Application Support Engineer, where I developed strong troubleshooting and problem-solving skills. Transitioning into full-stack development, I specialise in React.js, JavaScript/ES6 and TypeScript to build responsive, user-friendly applications. My toolkit includes HTML, CSS, Bootstrap, SQL and Git workflow. I am eager to leverage my technical expertise and problem-solving abilities in a Full Stack Web Developer role.

## EXPERIENCE

### Web Development Bootcamp

#### Le Wagon

📅 08/2024 - 10/2024 📍 London, United Kingdom

- Completed a 9-week intensive boot camp, gaining expertise in HTML, CSS, JavaScript/ES6, Ruby on Rails, SQL, Figma, Heroku, and APIs.
- Strengthened technical skills through daily coding challenges, pair programming, and project-based learning.
- Designed Figma prototypes and built the front-end based on those designs.
- Helped manage the codebase by contributing to code reviews and improving application performance.
- Developed **Job Connect Live**, a two-week capstone project that streamlines job searching by combining job listings and live chat interviews into a single web application.

### Consultant - IT

#### Virtusa Consulting Private Limited | Llyods Banking Group

📅 11/2021 - 12/2022 📍 London, United Kingdom

- Transformed a JSP web app into a high-performance SPA, resulting in an improved user experience.
- Executed pixel-perfect designs that adhered to Lloyds and Halifax branding guidelines.
- Integrated the Cypress framework, set up automated test cases, significantly improved overall code coverage.
- Improved user experience by fixing 50+ bugs and ensuring seamless cross-browser compatibility.
- Fixed bugs and resolved lint issues across the codebase, improving overall code quality and maintainability.
- Enhanced onboarding through improved documentation.

### Application Support Engineer

#### Flatirons Solutions | British Airways

📅 11/2018 - 01/2021 📍 Chennai, India

- Maintained and troubleshooted the British Airways Technical Manual website to ensure stability.
- Acted as the technical point of contact, providing full support and ensuring consistent communication across the team.
- Resolved escalated front-end issues to maintain a high level of user satisfaction.
- Implemented responsive design principles for optimal experience across devices.
- Contributed to Agile/Scrum sprints using Confluence, accelerating project delivery timelines.
- Demonstrated proficiency with CMS platforms.

## EDUCATION

### Bachelor of Engineering - Computer Science

**St.Peter's College of Engineering and Technology Bachelor of Engineering 06/2014 - 05/2018**

📅 06/2014 - 05/2018 📍 Chennai, India

## TECHNICAL SKILLS

### Languages & Frameworks

React.js, JavaScript (ES6), HTML, CSS, Bootstrap, jQuery, TypeScript, Responsive Web Design, RESTful APIs, JSON/XML, AJAX, SQL

### Testing & Debugging:

Cypress, Chrome DevTools, ESLint, SEO Optimisation

### Methodologies:

Agile/Scrum, SDLC, Accessibility & UI/UX Design Principles

### Collaboration & Design:

Figma, Jira, Trello, Git, GitHub, Bitbucket, Jenkins, Heroku, CMS, VS Code, Copilot

## CERTIFICATION

### Oracle Database 11g: SQL Fundamentals

Oracle Certification Program

### JavaScript Fundamentals

GreatStack

### Learn React 17\*

Scrimba

## ADDITIONAL INFORMATION

### Availability

Open to on-site, hybrid, and remote roles

### Work Authorization

Eligible to work in the UK without sponsorship
